SUMMARY

Analytical BCA graduate with practical experience in Data Analytics, SQL, Python, ETL Automation, and Power BI. Skilled in data cleaning, transformation, data modeling, dashboard development, database management, and reporting automation. Proficient in SQL, PL/SQL, MySQL, Pandas, and Power BI, with a strong focus on delivering data-driven insights and business solutions.

SKILLS

- **Programming:** Python, Core Java
- **Databases:** SQL, PL/SQL, MySQL, JDBC, RDBMS, SQL Query Optimization
- **Data Analytics & BI:** Power BI, DAX, Data Modeling, Advanced Excel, Dashboard Development, Data Visualization
- **Data Engineering:** ETL Processes, Data Cleaning, Data Transformation, Data Validation, Reporting Automation
- **Tools & Libraries:** Pandas, Git/GitHub, Linux Commands, Tkinter GUI
- **Core Competencies:** Data Analysis, Problem-Solving, Data Integrity, Business Intelligence, Cross-Functional Collaboration

INTERNSHIP EXPERIENCE

Data Analyst Intern — iTpreneur Edutech, Pune **June 2024 - Dec 2024**

- Gained hands-on experience in data analysis, data cleaning, transformation, and validation using SQL, Excel, Python, and Power BI to ensure accurate and reliable data.
- Designed interactive Power BI dashboards and reports, utilizing DAX and Power Query to visualize KPIs, analyze trends, and support data-driven business decisions.
- Contributed to real-world analytics projects, enhancing expertise in SQL, database management, business reporting, requirements gathering, and problem-solving.

PROJECTS

Retail Sales Data ETL Automation Pipeline **Python, Pandas, MySQL, Power BI**

- Built an automated ETL pipeline to process 10,000+ retail sales records from raw CSV files into MySQL.
- Cleaned, transformed, and validated data across 4 business datasets, improving reporting accuracy by 95%+.
- Reduced manual data processing effort by 80% through automation using Python and SQLAlchemy.
- Automated daily ETL workflows by scheduling Python scripts to execute automatically at 9:00 AM using Windows Task Scheduler.
- Developed a Power BI dashboard to analyze sales performance, customer behavior, and revenue trends.

Employee Management System **Python, Tkinter, MySQL**

- Developed a working desktop CRUD software application integrating a Python-driven Tkinter user interface with a persistent MySQL backend database engine.
- Implemented parameter-driven secure SQL statements and exception-handling modules to protect query transactions and guarantee runtime data integrity.

PROFESSIONAL EXPERIENCE

Inside Sales Representative — AUS IT Solution, Pune **May 2025 - March 2026**

- Managed customer interaction data through inbound/outbound calls, supporting lead tracking and sales analysis.
- Maintained accurate customer and sales records, ensuring structured data management and reporting.
- Analyzed customer needs and buying patterns to improve conversion rates and sales opportunities.
- Monitored CRM data, leads, follow-ups, and sales pipeline activities to improve efficiency.

EDUCATION

Bachelor of Computer Applications (BCA) — Amravati University **Graduation: 2024**

Result Score: CGPA 7.2/10

CERTIFICATIONS

- Data Analytics Program Training Certification – IT-Preneur, Pune (June 2024 - Dec 2024)
- SQL (Intermediate) Verified Certification – HackerRank (Issued: March 2025)
